Serial No. 10/698,382

Amendment dated April 12, 2006

Reply to Office Action of December 12, 2005

Docket No. IK-0068

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Previously Presented) An apparatus for protecting a door gasket of a refrigerator, comprising:

a drawer body including a storage space configured to be put into and taken out of a main body of a refrigerator;

a door coupled to one side of the drawer body and configured to pivot about an axis of rotation which is positioned proximate one end portion of the door, wherein an inner peripheral surface of the door is configured to align with a front face of the main body of the refrigerator when the drawer body is positioned in the main body of the refrigerator;

a gasket disposed between the axis of rotation and an edge portion of the one end portion of the door, wherein the gasket is configured to be positioned between the inner peripheral surface of the door and the front face of the main body of the refrigerator when the drawer body is positioned in the main body of the refrigerator and the door is in a closed position; and
